

How Goldsborough got it's name.

Long before time had a name there was a poor young man, who went to the old mine's. He swung his axe and a gold rush came by a god. He rushed like the wind and when he got to his dad's he said "dad they're is a gold rush that flooded the mine's." Take my to his gold flooded mine." Queen down said the man. Every body wants gold at this time of year. When they got there his dad was to greedy he asked his son to go away "No I will not" he shouted. The god give's me ever lasting wishes I wish you banished! His dad got every little bit of gold and used it to control the world. He made the world a bad place. The laws were like you has to where my designed shoes, whig, top, bottom half. Every body was sad and the world was all sad and the clothes were made of plastic so when they were done with the plastic clothes they just threw them on the ground and the world be k. am black, gloomy, sad and upset. His reign went on for year after year but nobody was powerful enough to over come him.
