

How Goldsbrough got
its name
a month ago in a
leaky cave used a miner
named Steven he loved
mining. His mum wanted
him to be a doctor but
he loved mining so much
that he became a miner
he was kind, nice and caring
miner he gave gold to
people. He had a pet mole.
He put his mole in the
bath the mole got
electrocuted then Steven
found out that the mole
was a robot spy and that
there's mole people that
thru wires and do!!!
to be continued. The miner
went in to mole mode
by the power of moles
I command to turn # in a
Mooooo. Oh ya.
The miner or should I say
mole sneaked in the
mole base he saw the boss
was a punk he wanted
to explode the mine
but the miner disabled
the missile and that's
who how Goldsbrough
got its name.
