

How Goldsborough got its name

Long ago in the grassy hills of a unown land two brave sisters lived in a wood hous their names were Godel and Sicil. Godel was kind she did every thing for Sicil, she had a golden glame drago her name was Lulu, she had golden scales on her body. She helped Godel with every thing. Sicil on the other hand was mean she did nothing to help Godel. She had a blue snake called Mensom he had the strongest poison in the snake family.

One morning Godel woke up and went down stairs. It was a shock to find that Sicil and Mensom were gone vanished, disappeared!

The amazing gold Goddess Aurora told Godel about a gold mine, in a cold land called England. "There is a lever and a trap door I must warn you there is the evil dragon". Aurora said in Godels dream.

Two weeks of packing to get ready to go to England, Godel got Lulu's shiny saddle out and put it on Lulu's back Godel climbed on. They set off through the glittering waterfalls above the dark and light woods across the grassy green hills and flying out to of Oceans to England. Aurora said Look for fire as light as gold there is where you need to be

Godell found the fire and landed and saw a lever it was made of gold, she was about to touch it just then a dragon came down and shot fire at her! It was easy to know what type of dragon it was. She said worried "oh no a golden fire dragon they have the hottest fire in the world." She gulped. She ran as fast as she could and told Lulu to use her fire to help her.

There was an epic battle that went on for hours and hours but Godell threw a pink dragon fruit and it landed in the golden fire dragons mouth and it finally spoke in a dragon language "Hello my name is Lula the protector of the gold mine what do you want" Godell replied "Hi Lula my name is Godell and this is Lulu we are here because the Goddess Aurora told us about a gold mine here" Lula was speechless.

Lula let Godell and Lulu in the dark gold mine. Lulu looked around and saw a place to use her fire so they could see and she asked "Lula have you ever been down here because it feels like someones watching me?" Lula replied "I forgot to tell you theres green flying snakes!" "oh no" Lula said loudly. Just then a snake flew straight into Lulu and bit deadly poison Godell was convinced that there was poison. She tried to get it out but it was too late Lulu died. Godell jumped on Lula's back and they

flew out of the gold mine.

Godel and Lulu decided to build a big hall on top of the dark gold mine and built a village. People came from all over the world to stay.

One day Sicil and Menson came and helped populate and she said "What are you going to call this place and where's Lulu?" and Godel replied "Well Sicil Lulu died and I was thinking calling it Goldsborough.

What do you think?" "Yes perfect name I'm going to make my own village." Then Sicil walked off with Menson.

That's how Goldsborough got its name.
