How Goldsborough got its name

Long ago, in the deep grassy hills of an unknown land there lived a family of 4 who where extremely poor.

The family of 4 lived in a small cottage with 4 room's and not enough bedrooms for everyone. Some of the family had to sleep on the floor in a very crampped space.

Two people in the family were very ill. The person that was ill was Godel's Mum and Dad.

So one day Godel went journey to find a cure for her Mum and Dad and she walked all the way around the country to find a cure for them.

But instead of a cure she found a hole in the deep dark ground.

Godel went down the dark hole and found a big hairy monster called Eddger and he was gaurding a long golden stair case.

Godel wanted to go up the golden stairs because they could go any way so she crept passed Eddger but Eddger woke up because he was asleep and he chased her all the way up the stairs. When they got up the stairs they were blown away.

They were blown away because they saw a whole mountain of gold and Eddger had never seen gold before neither had Godel.

Eddger and Godel became good friends after they had seen the gold. Eddger let Godel take all the gold home. Godel decided to take Eddger home aswell.

So Godel and Eddger took all the gold home and Godel and her werent poor any more. Godel bought a cure for her Mum and Dad and they got better. Godel usued some of the gold to get her house and all the other villagers houses Masive. Godel called the unknown land Goldsborough because they found all the gold and everyone was delighted with the name Goldsborough and they were all happy.
